Out of the BLUE

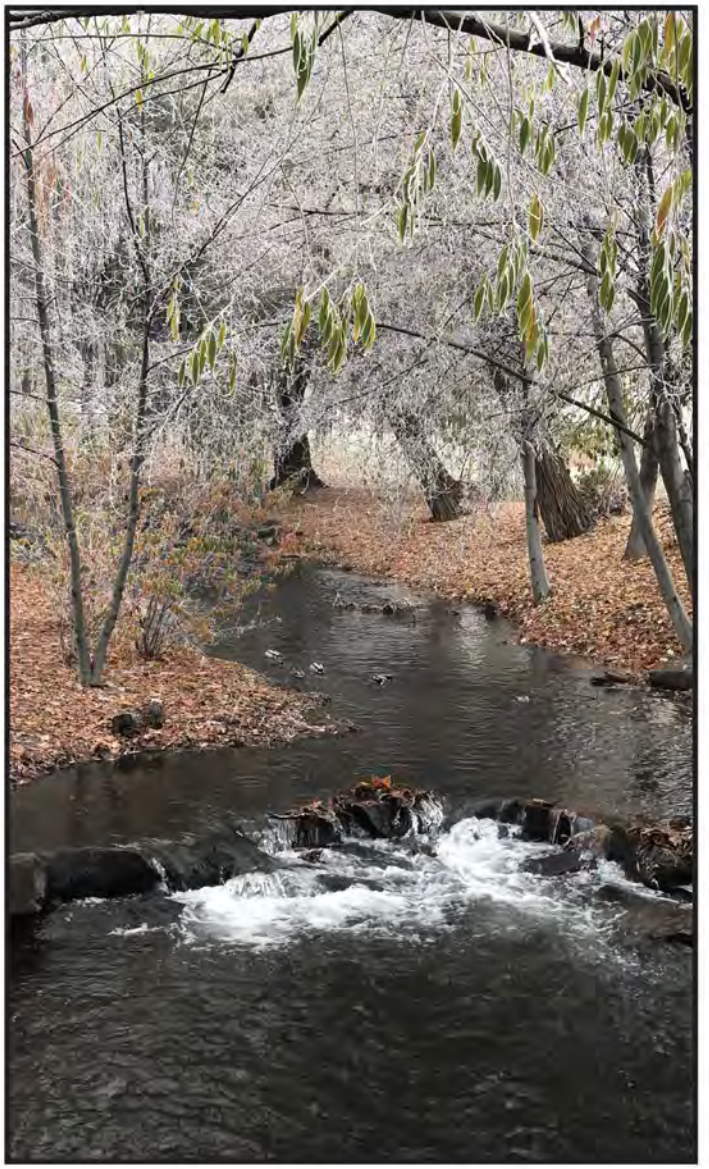
Every student at our high school shines a light when they come out of the blue. We light our path in unity to build a foundation for our future. As we graduate from our alma mater we remember our goals, skills, and treasured memories. As we grow we'll leave our small town life style to enter a bigger world with colors shining bright. You may not always know what you're looking for, but what you'll discover in the big world will be wonderful. Shine bright when you come out of the blue.

"You're off to great places!"



"Today is your day!"
~Dr. Seuss

Every 15 Minutes

Every 15 minutes is a program to spread awareness about distracted or impaired driving. Students who choose to participate are pulled out of classes to represent someone who died in an accident caused by distracted or impaired driving; and become ghosts for the day. These student can not talk or interact with other students. After a student is pulled, a tombstone is put in the make shift cemetery by the commons. This is done to show seniors the impact that distracted or impaired driving has on everyone around them.

Hamlet

Daisy Moore: Gertrude

What were some challenges about bringing the script to life?

"The fact that it was Shakespeare is really hard because it is a really old language and hard to understand so it took the cast itself a long time to get what it was saying. Also, we had to make not only ourselves understand it but also the audience as well, even though the language was really hard."

Are you planning on pursuing acting after High School?

"I personally am not, I might potentially do it for fun on the side. It is more of a community thing here for me."

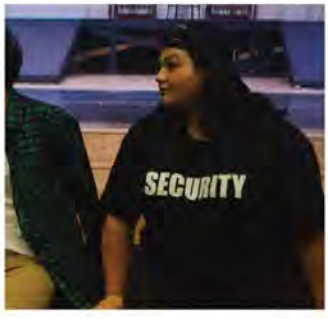
Ryland Hopkins: Hamlet

What did you love the most about your role? Why?

"I love how it really gave me a solitary purpose. Hamlet meant a lot to me because he's kind of a freethinker and I am also a freethinker. I see a lot of similarities between us, so being able to play that is pretty cool. Also, being able to work with a fantastic director and great cast is a great experience."

How long have you been acting? When did you start?

"I started freshmen year. I accidentally got put into Brian Senter's acting workshop class. I tried to switch out the first two weeks but I ended up staying in that class all year."



Hailee Rutherford: Marcellus

Who was your favorite person to work with?

"I really liked working with Jacob and Lucien both because they always made everything fun. It was always a good time."

What was the hardest scene for you to do?

"The last one where Hamlet died for sure. It was really hard to keep a straight face because I found it really funny when Horatio slapped the cup full of poison out of Hamlets hand."

Matthew Reser: Polonius

What did you love the most about your role? Why?

"I liked that it was a comedic role. The experience of being in the Wa-Hi department, having a lead role, being able to lead my fellow cast members, being a comedic relief and laughing at what I say on stage is fun."

How long have you been acting?

"I started acting Sophomore year. I got dragged into acting ensemble, they said try out for "Pink Panther" so I did and I have been doing that ever since."

Out of the BLUE

Your mountain is waiting, so get on your way!" ~ Dr. Seuss

As we end this adventure and move to our next our future is waiting for us. Maybe yours is coming back in August to further your time and education at Wa-Hi, or maybe yours is up on the stage in your cap and gown just itching to start the next chapter of your life . Either way you're a Blue Devil, now and forever, and no one can take that from you. Whatever our futures hold we'll never forget our beloved teachers, friends, or the light we found when we came out of the blue at our Walla Walla High School.
